## I. Introduction

This Professional Development Plan for the Guilderland Central School District describes a vision for adult learning that is collaborative, continuous, embedded in daily practice and focused on student achievement. This model builds on and strengthens the successes already evident in the district. We strive to strengthen this culture that supports adult learning by providing a framework that affords every educator an opportunity to enrich his/her practice.

Throughout this document, we reference the ultimate goal of professional development: improved student learning. While being mindful of that core purpose, it is important to acknowledge the additional benefits of this comprehensive professional development plan:

- improving job satisfaction
- improving our ability to recruit and retain new educators
- increasing our knowledge of innovative practices
- meeting the NYSED requirements for professional development planning
- promoting shared decision-making and inclusive leadership

The scope of professional development (PD) in Guilderland will not be limited to attending a workshop or participating in a seminar with a visiting expert. Professional development will consistently be an ongoing process that involves sustainable improvement in student learning and instructional practices. This requires evaluation of student performance and teacher self-assessment, identifying possible courses of action, testing new approaches, assessing results and then beginning the process anew. This work is best done with colleagues and not alone, because each of us is limited by our own perception of the problem and knowledge of possible solutions.

Although professional development can be defined in a number of different ways, we prefer the description Judith Warren Little gives in an article entitled "Organizing Schools for Teacher Learning". Little describes professional development as "a focus on and responsibility for student learning and the formation of professional community inside and outside the school" (1996, p.1).

Linda Darling-Hammond and Milbrey W. McLaughlin define professional development as "deepening teachers' understanding about the teaching/ learning process and the students they teach," which "must begin with pre-service education and continue throughout a teacher's career." They state that "effective professional development involves teachers both as learners and teachers, and allows them to struggle with the uncertainties that accompany each role" (1996, p. 203).

In the Guilderland Central School District, our approach to professional development is to make certain that all educators have the best possible skills, content knowledge, and preparation for teaching. The needs of learners in the twenty-first century demand innovative, progressive, and cutting-edge instruction. As such, the quality of our professional development programs are influenced by a variety of factors. The National Staff Development Council recognizes these variables as the essential standards for professional development in education. The standards are:

## CONTEXT

**Learning Communities:** Staff development that improves the learning of all students organizes adults into learning communities whose goals are aligned with those of the school and district.

**Leadership:** Staff development that improves the learning of all students requires skillful school and district leaders who guide continuous instructional improvement.

**Resources:** Staff development that improves the learning of all students requires resources to support adult learning and collaboration.

## PROCESS

**Data-Driven:** Staff development that improves the learning of all students uses disaggregated student data to determine adult learning priorities, monitor progress, and help sustain continuous improvement.

**Evaluation:** Staff development that improves the learning of all students uses multiple sources of information to guide improvement and demonstrate its impact.

**Researched-Based:** Staff development that improves the learning of all students prepares educators to apply research to decision making.

**Design:** Staff development that improves the learning of all students uses learning strategies appropriate to the intended goal.

**Learning:** Staff development that improves the learning of all students applies knowledge about human learning and change.

**Collaboration:** Staff development that improves learning of all students provides educators with the knowledge and skills to collaborate.

## CONTENT

**Equity:** Staff development that improves the learning of all students prepares educators to understand and appreciate all students, create safe, orderly, and supportive learning environments, and hold high expectations for students' academic achievement.

**Quality Teaching:** Staff development that improves the learning of all students deepens educators' content knowledge, provides them with research-based instructional strategies to assist students in meeting rigorous academic standards, and prepares them to use various types of classroom assessments appropriately.

**Family Involvement:** Staff development that improves the learning of all students provides educators with knowledge and skills to involve families and other stakeholders appropriately.

Quality professional development is a dynamic and fluid process. If appropriate structures are in place (context), a variety of best practices (processes) are used, and appropriate knowledge and skill acquisition are occurring (content), then professional development will impact student achievement.

## **II. New York State Education Department Regulations and Requirements**

This Professional Development Plan meets the requirements of the 100.2 (dd) Regulations of the State of New York. The purpose of this plan is to improve student learning by providing meaningful, focused, professional development opportunities that are aligned with the Learning Standards of New York State (NYS). Additionally, public school districts are required to have a professional development plan which describes how it will provide all of its teachers, teaching assistants and long-term substitute teachers with substantial professional development opportunities *and* how it will provide its professional certificate holders with opportunities to maintain such certificates in good standing based upon successfully completing 175 hours of professional development for teachers and 75 hours for teaching assistants every five years.

## **III. Philosophy**

The purpose of the Guilderland Central School District's professional development plan is to improve the quality of teaching and learning, and to directly align this plan with our continued commitment to putting students first, professionalism, instructional technology, respect for all, high expectations, learning standards, and shared decision-making. Professional development is a multi-faceted, information-based process that is strategically planned to provide individual, school and district solutions to targeted areas in need of improvement or strengthening. Our professional development program is intentionally designed to build skills and capacities for improvement through comprehensive and ongoing learning. We believe that sound and practical professional development programs are positive links to establishing effective instructional practices that will enhance the knowledge of curriculum content, design and delivery.

Research in the field of education and professional development has revealed a series of characteristics and practices observed in exemplary programs. These principles focus a school district's attention and resources on professional development strategies for improving student learning and achievement. In addition, there are a variety of conditions that are salient when implementing sound and effective professional development programs. As such, professional development in Guilderland will:

- reflect a commitment to ongoing and continuous professional development that is based on the analyses of multiple sources of data
- include sufficient time and follow up support provided to staff to master new content and strategies
- ensure that content of professional development focuses on what students need to know and be able to do and is explicitly linked to the effect on student learning
- make certain that content of professional development will provide opportunities to gain an understanding of the theory underlying the knowledge (context) and skills being learned
- support the implementation of best practices as evidenced by research
- provide both a focus on instructional repertoire and content-specific skills. Instructional improvement requires that teachers possess a deeper understanding of both their academic disciplines and of specific pedagogical approaches
- impart opportunities to explore, question, and debate in order to integrate new ideas into classroom practice
- maintain a differentiated and developmental approach to meet individual and district needs relating to the teaching and learning process

- involve teachers in the identification of what they need to learn and in the development of the learning experiences in which they will be involved
- include the use of flexible times and models are essential for successful implementation of professional development

Although professionals in Guilderland are continually improving their craft and honing their skills through their own self-improvement efforts, systemic change and growth requires collective and sustained efforts. Our comprehensive professional development plan promotes student achievement by providing learning opportunities for staff that is aligned with major school and/or district goals identified through regular needs assessments and a professional development planning process. The professional development planning process is:

1. **Identify** school/district educational goals
  - Review existing educational goals for state, district and schools
  - Analyze student achievement data: past, present, projected trends
  - Diagnose areas of student need
  - Establish improvement with measureable goals expressed in terms of desired outcomes and within the context of the learning standards and district's priorities whenever possible
2. **Plan** for implementation
  - Outline flexible and integrated professional development strategies and activities that address the needs as identified through school and district goals
  - Identify sources of expertise to assist with identified needs and goals
  - Select PD content and process at each level (district, school, team, or individual)
  - Identify sources and uses of financial resources
3. **Implement** professional development strategies
  - Integrate learning models that provide choice, differentiated learning, sustained collaboration and ongoing support
  - Incorporate best practices into teaching, learning and leadership
  - Identify critical factors for successful implementation
4. **Monitor** progress
  - Identify success measures for professional development activities
  - Identify data sources and gathering method for each measure
  - Plan for articulation of findings
  - Keep records of PD implementation, participation and feedback
  - Administer feedback surveys and collectively analyze results

## **IV. Needs Assessment**

As part of the ongoing professional development planning cycle, the Guilderland Central School District reviews multiple sources. The following items may be analyzed annually to determine the focus and content of the professional development plan:

### **Student Achievement Data**

- School Report Card
- NYS and District Assessments (e.g., 3-8 testing and Regents exams)
- Disaggregated Student Achievement Data
- Report Cards
- VADIR/DASA Reports
- Supervisor and Department Data Analyses and Recommendations
- Counseling and Social Work Records
- Student Attendance and Discipline reports
- Graduation and Drop-out Rates
- Special Education Identifications and Annual Reviews
- NYS Learning Standards
- College Placement Rates
- Academic Intervention Services and Rtl Records
- Fountas and Pinnell Elementary Benchmark Reading Assessments
- College Boards (AP, SAT)

### **Surveys**

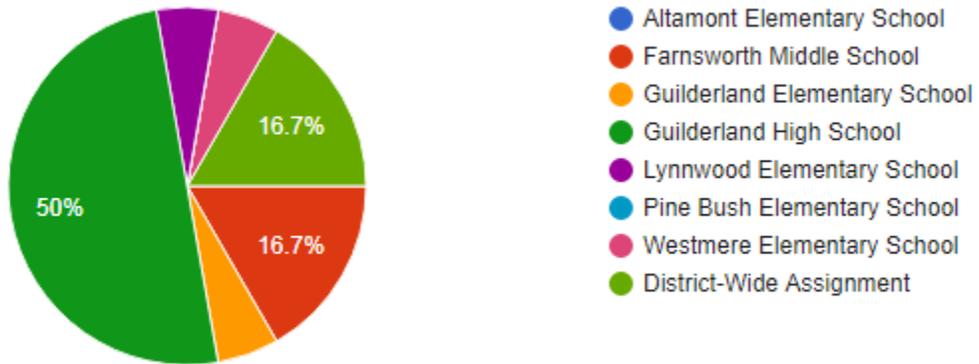

- Professional Development Needs Assessment Survey via Google Forms
- Professional Development Evaluation/Feedback Surveys

### **Additional Data Sources**

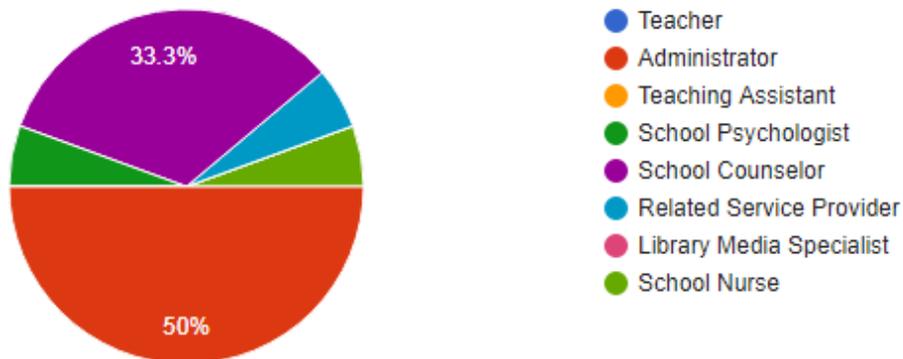

- BEDS Data
- Longitudinal Student Performance Data
- Teacher Retention and Turnover Rates
- Professional Performance Reviews and Observations/Evaluations
- Program Evaluations
- Feedback from Curriculum and Building Cabinets
- SED Regulations and Mandates
- Mentor Program Evaluations
- eDoctrina Student Profiles

## **V. Goals and Implementation Plans for 2017-18 Professional Development**

The following professional development goals and objectives have been identified for the 2017-2018 school year. The data collected, generated and analyzed by the Guilderland Central School District in conjunction with district and school level plans will support the goals, objectives, strategies, activities, and evaluations of this professional development Plan.

The district goals and each of the objectives designed to achieve such goals (all of which are detailed on subsequent pages) were identified through completion of needs assessments, using MyLearningPlan survey tools, as described previously. Additionally, recurring and ongoing annual commitments to professional development are noted.

**Goal #1: Continue to align programs practices with NYSED Requirements, including any new or revised State Learning Standards for English Language Arts and Literacy in History/Social Studies, Science and Technical Subjects and for Mathematics.**

**Objective 1.1:** Continue to train instructional leaders and faculty in all frameworks, practices, and requirements of the NYS Next Generation Learning Standards including Frameworks for *Social Studies* and Next Generation *Science* Standards.

*Essential Question: How can common learning standards are used to inform instruction and develop in all students the practice skills and content knowledge required for college and career readiness in multiple disciplines?*

**Activities and Strategies**

- Update curricula and programs for alignment to NYS P-12 Common Core Learning Standards for ELA/Literacy, Mathematics, Science, and Social Studies
- Provide training and support for implementation of NYS Next Generation Learning Standards for ELA/Literacy, Mathematics, Science, and Social Studies.
- Provide focused training and collaboration opportunities for collective understanding of Next Generation Science practices and Cross-Cutting Concepts

**Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue analysis of NYS learning standards for strategic implementation. Instructional Administrators, Principals, and Teacher Leaders have worked closely with District Leaders and Curriculum Cabinets to provide curriculum-alignment efforts to ensure that all teachers are informed of standards and are prepared to demonstrate improved pedagogical and instructional skills in their respective areas of expertise. Additionally, teachers and leaders have been provided focused professional development around such learning standards by Capital Region BOCES

**CTLE Providers**

- District Instructional Leaders/Administrators and Curriculum Cabinets
- Capital Region BOCES
  - Laura Lehtonen- Managing Program Coordinator for Science, Technology, Engineering, Math (STEM) and 21<sup>st</sup> Century Skills
- Jeanne Tribuzzi- Jeanne Tribuzzi, professional developer from the Columbia University Reading and Writing Project, draws on a variety of roles and extensive experience with literacy and curriculum for her work as a units of study staff developer, including primary teacher, middle school English teacher, director of staff development, director of English Language Arts, ESL, and Second Languages, and, most recently, district administrator of global concepts.

**Goal #2: Continue to support the integration of advance technology applications to improve instruction, enhance student engagement and maximize learning in a 21<sup>st</sup> century classroom.**

**Objective 2.1:** Train instructional staff in the application of instructional technologies (1:1 Chromebook program, Google Apps, etc.)

*Essential Question: How can effective applications of instructional technologies enhance student engagement, learning and achievement?*

**Strategies/Activities**

- Provide a variety of opportunities for staff to develop technology skills for instruction, communication, and presentation
- Establish a cohort program whereby GCSD teachers are able to become Google Certified Educators Level 1
- Provide opportunities for staff to develop instructional skills enhanced by use of technologies
- Provide staff with opportunity to learn current advancements in web-based technology resources (Google Classroom and Google Apps for Education, Chromebooks, Extensions and Add-ons, etc)

**Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue to prepare for implementation of the district’s Technology Plan, which focuses on ubiquitous and necessary integration of instructional technologies and applications. The expectations and practices are outlined well in a rigorous K-12 Scope and Sequence which serves as a foundation for professional development activities. Significant focus has been placed on collaboration and communication enhanced by technology in and beyond the classroom. Administrators, Principals, and Teacher Leaders have worked closely with District Leaders to establish a deep understanding of the technology plan and pending initiatives (e.g. 1:1 Chromebook program). Additionally, teachers and leaders have been provided focused professional development by our Coordinator for Instructional Technology, NYSCAT, EdTechTeam, and Capital Region BOCES,

**Strategies/Activities**

- Provide a variety of opportunities for staff to develop the skills needed for effective use of social media and on line tools
- Provide administrators and clerical staff with necessary skills for advanced communications using social media
- Develop supporting documentation and start-up guides to support end users
- Plan and implement a district-wide “Success in a Digital World” week-long event focused on the essential skills and understandings necessary for safe and productive use of 21<sup>st</sup> century technologies

**Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue to prepare for implementation of the district’s Technology Plan, which focuses on ubiquitous and necessary integration of instructional technologies and applications. The expectations and practices are outlined well in a rigorous K-12 Scope and Sequence which serves as a foundation for professional development activities. Embedded within the Scope and Sequence are an array of application, strategies and expectations for instruction on safe and constructive use of social media. Administrators, Principals, and Teacher Leaders have worked closely with District Leaders to establish a deep understanding of the critical need for instruction of digital citizenship and cybersafety. Additionally, teachers and leaders have been provided focused professional development by our Coordinator for Instructional Technology, NYSCATE, EdTechTeam, and Capital Region BOCES.

**Goal #3: Ensure that all members of the Guilderland professional staff develop the skills, knowledge and strategies to effectively implement curriculum and best instructional practices.**

**Objective 3.1: Promote literacy development K-12 and in all content areas**

*Essential Question: How can reading and writing across the disciplines positively affect learning and achievement?*

**Strategies/Activities**

- Sustain long-term commitment to professional development in literacy via targeted learning of best instructional practices
- Continue to support transition to Calkins Units of Study for Reading and Writing (K-8)
- Continue to support elementary teachers' administration and use of Fountas and Pinnell Benchmark Reading Assessments and Leveled Literacy for Intervention for SBST Progress Monitoring, for diagnostic purposes
- Continue to strengthen collaborative structures for literacy coaching at the elementary level (LES).
- Establish strong partnerships with higher education and research centers (e.g., Lesley University, Columbia, University at Albany)
- Facilitate Curriculum-Alignment with continued focus on workshop structures and alignment with SBST plans, Next Generation Standards, curriculum calendars, etc.
- Explore digital portfolios as an additional tool for model reading and writing progress monitoring- WES Pilot of Seesaw
- Establish strong partnerships with higher education and research centers (e.g., Lesley University for Reading Recovery)
- Explore digital portfolios as an additional tool for model reading and writing progress monitoring
- Facilitate a Reading Recovery Training Class with focus on Literacy Lessons for K-5 special ed. and ENL teachers

**Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue analysis of NYS learning standards for strategic implementation. Instructional Administrators, Principals, and Teacher Leaders have worked closely with District Leaders and Curriculum Cabinets to facilitate curriculum-alignment efforts to ensure that all teachers are informed of standards and are prepared to demonstrate improved pedagogical and instructional skills in their respective areas of expertise. A primary and essential focus has been placed on reading and writing proficiency and skill development in all areas. Spearheaded by our Curriculum Cabinet for Language Arts and Instructional Leaders, we will implement a series of workshops for K-5 teachers who have been implementing the Calkins Units of Study for Writing and Reading. Grades 6-12 teachers are deeply engaged in course alignment to learning standards for Literacy.

**Goal #4: Establish a community focused on the prevention of harassment and discriminatory behaviors through the promotion of education measures meant to positively impact school culture and climate.**

**Objective 4.1: Dignity For All Students Act** – Continue to provide professional development to help staff understand and follow all revisions to the District’s Code of Conduct and Board policies regarding the Dignity for All Students Act.

*Essential Question: How can a safe and respectful school community foster learning and student achievement?*

**Strategies/Activities**

- Plan and implement PD programs designed to prepare staff to fully implement practices and expectations articulated in the Code-of-Conduct and Board policies
- Build capacity and skill amongst staff via study groups, building teams, and district-wide committee for safe and Respectful Schools
- Facilitate and support action research in the areas of bullying and school climate
- Provide Focused training to support educators in their efforts to provide safe and secure learning environments for LGBTQA students

**Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue to participate in annual trainings to ensure that all staff members are well informed about the regulations, needs, and plans for compliance with the Dignity for All Students Act. Additionally, professional development programs will be implemented to develop collective sensitivity and awareness of cultural and socioeconomic differences in our community. Dr. Amanda Nickerson from the Alberti Center at the University of Buffalo will be providing professional development to all employees in this critical areas. Furthermore, professional development activities will be provided to expand our collective understanding of humanistic behavior management strategies employed by staff. Dr. Julie Causton from Syracuse University will facilitate such work. School and District DASA Coordinators will also participate in DASA trainings provided by Capital Region BOCES.

Lyndon Cudlitz- Consultant and former Director of Education and Training for the Pride Center of the Capital Region will provide critical training to staff on matters related to the safety and security of LGBTQA students in Guilderland

## **Goal #5: Provide meaningful and ongoing professional development for effective implementations of best practices for support of all learners and sub groups**

**Objective 5.1:** Implement adopted amendments to Part 154 of the Commissioner's Regulations regarding English as a New Language (ENL) and students with disabilities. Provide professional development to help staff understand and follow all revisions to the Part 154 Regulations and IDEA legal requirements.

*Essential Question: How can GCSD assure that students with limited English and/or disabilities are provided opportunities to achieve the same educational goals and standards established for all students.*

### **Strategies/Activities**

- Plan and implement PD programs designed to prepare staff to fully implement practices and expectations regarding ELLs and SWDs
- Build capacity and skill amongst staff via study groups, building teams, and district-wide committee for effective instruction and support of ENL students and families
- Provide all teachers and administrators professional development to meet the needs of disabled and ENL students.
- Utilize all available student information to inform planning of responsive instructional practices

### **Continuing Teacher and Leader Effectiveness (CTLE)**

Teachers and leaders will continue to participate in annual trainings to ensure that all staff members are well informed about Part 154 regulations, student needs, and district plans to support all English Language Learners. Such efforts will be coordinated and facilitated by our Instructional Administrator for World Languages and Cultures/ENL Professional development programs will be implemented to develop collective understanding of language and cultural differences as well as best instructional practices to support such students. Additionally, ENL teachers will collaborate and learn with classroom teachers participating in all professional development activities described previously. Dr. Amanda Nickerson from the Alberti Center at the University of Buffalo will also address needs of ELLs in her presentations and workshops. Kristin Lyden from Capital Region BOCES will support efforts to effectively monitor student progress and growth, as well as support efforts made by problem-solving teams (e.g. SBST) to address student needs.

- Karen Bailey- With an expertise in formative and summative assessment, Karen Bailey has worked extensively with educators and instructional leaders across North America. Her knowledge and enthusiasm make her a highly sought-after presenter, educational consultant, and thought leader. Karen's experience with curriculum and assessment design, educational best practice, and professional learning communities comes from her work as a successful classroom teacher, professional development specialist, and strategic advisor. A dynamic and engaging speaker, Karen is committed to helping educators and administrators improve their assessment literacy and to better understand the role it plays in improving student-centered, standards-based teaching and learning. Karen's experience began as a public school educator where she focused on effective classroom instruction, new teacher mentoring, curriculum and assessment writing, and K-12 instructional coaching. Karen was a key staff member at Measured Progress, an organization that tailors standards-based educational assessments and professional development programs to measure student achievement and improve teaching and learning. As a project manager for an English Language Learner (ELL) 13-state consortium, she supervised the creation of standards, piloted and field-tested assessment items, and assisted in the construction of a national high stakes assessment. As a professional development specialist Karen was trained by Dr. Rick Stiggins of the Assessment Training Institute/Pearson. She has worked at the national, provincial, state, district, and school levels to implement long term professional development programming, evaluate multiple measures of effectiveness, and assist in the creation and implementation of classroom-based formative and summative assessments. After working for Solution Tree with the Dr. Rick DuFour, Becky DuFour and Dr. Bob Eaker on the implementation of professional learning communities, Karen collaborated with Dr.

Heidi Hayes Jacobs and Dr. Bena Kallick on the work of curriculum mapping and 21st century learning. Karen is currently the President of Bailey Educational Consulting. Karen graduated summa cum laude with a Bachelor of Arts degree in education and humanities from Roger Williams University and summa cum laude with a Master of Arts degree in curriculum and instruction from the University of Connecticut.

**Continuing Teacher and Leader Effectiveness (CTLE)**

Coupled with the district’s efforts to employ inclusive and equitable school practices and maximize access by all learners to curriculum, a significant expansion of co-taught classes has occurred. This work has warranted sustained professional development efforts on the guidelines for Universal Design for Learning. The district has collaborated with professional developers from the Center for Applied Special Technologies (CAST), a nationally recognized organization led by the researchers and developers of such guidelines. Additionally, district instructional leaders facilitate collaborations to maximize the impacts of co-teaching and UDL.

## **VI. MENTOR PLAN (G.E.M.S.)**

**GUILDERLAND CENTRAL SCHOOL DISTRICT  
&  
GUILDERLAND TEACHERS ASSOCIATION**

Mentor Program 2017-18

**“GEMS”**

**Guilderland  
Educators  
Mentoring for  
Success**

*“Empowering All Students to  
Succeed in the 21<sup>st</sup> Century”*

**OPERATING PRINCIPLES**

We will arrive on time, prepared, and participate fully.

We will listen with respect and with intent to understand.

We will support and take responsibility for group decisions.

We will be open and honest.

We will operate with a clear purpose that aligns with our mission and vision.

We will celebrate the positive.

We will nurture and develop leadership in others.

### *Mission Statement*

**The purpose of mentoring is to provide support and reflective guidance to new teachers using a team approach. An effective mentor program needs trust, confidentiality, non-judgmental interactions, and mutual respect. The results of mentoring are more effective teaching, a collegial atmosphere that encourages professional growth, celebration of success and providing a comfortable transition of new teachers into the culture of the Guilderland District.**

### *Belief Statement*

The Guilderland Teachers Association, in an effort to provide support and reflective guidance to its new teachers, has developed a mentoring program. The mentoring program employs a team approach which affords new teachers the benefit of interacting with many colleagues of varied experiences, grade levels and subject areas.

An effective mentor program needs trusting relationships in order to address questions, needs, and concerns of new teachers. Through confidential, nonjudgmental interaction, veteran professionals meet regularly with new teachers to support their growth and development. This teacher generated mentor program is conducted with the support of the administrative network.

## *Goals*

The Mentors and Mentees at each school are encouraged to meet as a group at least once a month. The goals of the Guilderland Educators Mentoring for Success are as follows:

- Easing the transition of new teachers
- Creating a collegial atmosphere that encourages professional growth
- Celebrating successes
- Developing more effective teaching
- Establishing a trusting relationship to assimilate new teachers into the cultural context of the Guilderland School District

## *Program Roles and Responsibilities*

### **DISTRICT-WIDE COORDINATOR:**
