As a student who does nothing all day, defers her work to the last minute, and effortlessly just slugs around all over the house, I am endlessly grateful for all the work my local staff has done for my community. The long hours with the tight masks and having to come home to care for their family and do it all over again the next day. I am grateful that they are taking this risk, their time, and effort to help during this pandemic. You are the true heroes of America.

I have immense gratitude for my dad and the rest of my extended family who are helping patients in hospitals and being amazing healthcare workers.
