

Quarantine Buddies (Option for GHS, FMS)

QBs

In situations where students are absent (COVID-related ONLY), consider appointing 2-3 Quarantine Buddies (QBs) for each class. These students will pair up with a remote classmate to help guide them through the class, providing a “window into the classroom,” and alleviate the teacher’s stress of multi-tasking. Once the remote student returns, the QB will be available to work with another remote student.

The QBs can:

- Facilitate the live meet on the Chromebook. For example, the QB can hold the Chromebook to show a lab demonstration, or position it for group work.
- Help to ensure that the remote student’s questions are answered, are up to date with assignments, due dates, and notes.

It is a student’s choice to agree to serve as a QB.

*The QBs will **not** be held accountable for the remote student’s classwork, homework, assignments, or grades.*

The QB will earn service hours for NHS and NJHS.
