

# **National Junior Honor Society Information**

## **2022-2023**

Scholarship, Service, Leadership, Character and Citizenship are the five key components for membership into the National Junior Honor Society. Only students at the eighth grade level are considered for candidacy.

### **Scholarship**

At the end of the second marking period of eighth grade, all current students achieving a cumulative average of 90% or above, without rounding, through eight quarters, (sixth grade, seventh grade, and the first two quarters of 8th grade) will be considered academically eligible for National Junior Honor Society. These students and their parents will receive, by email, notification of eligibility in February. Those students receiving notification will then need to demonstrate Service, Character, Leadership and Citizenship.

### **Service, Leadership and Citizenship**

To be considered further for NJHS, each candidate must perform 10 hours of community service. This can and should be done over the course of all three years at FMS but must be completed prior to the date on which the Student Information Form is due. A community service resources list of suggested qualifying activities is available online on our FMS homepage. All community service hours are to be recorded in Section VII of the NJHS Student Information Form. Should students need to attach certificates or other documentation of hours, these items may be scanned and attached to their online submission of the Student Information Form.

To demonstrate leadership and citizenship, eligible students must complete the remaining sections of the NJHS Student Information Form in its entirety. The completed form must be submitted in the NJHS Google Classroom by the due date. Forms that are incomplete will not be accepted or reviewed by the faculty council. Student Information Forms will be made available to all students who are invited to join the NJHS Google Classroom after meeting the academic requirements described above.

As a final step, the FMS faculty council will convene to review all eligible candidates who have completed and turned in all required paperwork for leadership, service, character, and citizenship. The faculty council will select those students to be inducted into the NJHS. Selection to NJHS is a privilege bestowed upon students by the faculty of FMS. Membership is granted only to those students who have met the standards for selection which are communicated above. All potential candidates should be aware that one cannot apply for

membership in NJHS and that submission of a Student Information Packet and subsequent review by the faculty council does not guarantee selection. Candidates selected for NJHS will be notified by letter and inducted during an evening ceremony in the spring semester.

The expectation is that newly inducted NJHS students continue to serve and positively contribute to FMS for the conclusion of their eighth grade year. Students who are not selected for induction will be notified by letter as well. Those who wish to appeal the decision of the faculty council should do so in writing by the date indicated on the letter notifying them of the council's decision. For additional information or to answer any NJHS questions, students and families are encouraged to access our FMS website NJHS resources or contact the NJHS advisor, Melissa Abbasi at [abbasim@guilderlandschools.net](mailto:abbasim@guilderlandschools.net).
